

WOLFEBORO CONSERVATION COMMISSION
DREDGE & FILL MEETING
March 11, 2013

Members Present: Dan Coons, Chairman, Randy Tetreault, Vice-Chairman, Ed Roundy, Art Slocum, Lenore Clark, Gail Antonucci, Dave Wheeler, Members, Gary Mason, Sarah Silk, Alternates.

Lynn M. Elkinton
86 Broadside Road
Lake Winnepesaukee
Standard Dredge & Fill
TM #213-15

The applicant proposes to reconfigure the existing dock and breakwater to provide an additional boat slip.

The Wolfeboro Conservation Commission noted no objection to reconfiguring the dock and breakwater for the Lynn M. Elkinton Standard Dredge & Fill application, Tax Map #213-15. However, the Commission questions whether the proposed “W” shaped dock is the least impacting or whether a “U” shaped dock would achieve the same benefit and be less impacting. The Commission noted the 12’ width between dock structures is wider than an 8’ wide boat slip.
