

**TOWN OF WOLFEBORO
CONSERVATION COMMISSION
DREDGE & FILL MEETING
November 10, 2014**

Members Present: Dan Coons, Chairman, Randy Tetreault, Vice-Chairman, Ed Roundy, Lenore Clark, Art Slocum, Gary Mason, Members.

**Candace Thayer Family Trust
59 Tips Cove Road
Lake Winnepesaukee
Permit By Notification
Tax Map #240-3**

The applicant proposes to repair end of breakwater and slope of various sections and adding 150 SF of new rock.

The Wolfeboro Conservation Commission noted no objection to the Candace Thayer Family Trust Permit By Notification application, Tax Map #240-3.

**JKPM Trust
1 Diamond Cove Road
Lake Winnepesaukee
Permit By Notification
Tax Map #228-7**

The applicant proposes to repair existing 4'x33' cantilevered dockage & breakwater "in kind" due to ice damage. No work is proposed to the boathouse.

The Wolfeboro Conservation Commission noted no objection to the JKPM Trust Permit By Notification application, Tax Map #228-7.

**Kenneth Cavallaro
9 Oakwood Road
Lake Winnepesaukee
Standard Dredge & Fill
Tax Map #267-2**

The applicant proposes to install two 6'x40' seasonal lift out docks with two 3'x7' anchor pads and connecting walkway in a "U" configuration and dredge approximately 1840 SF to allow 3' of water to park boats.

Referencing the Kenneth Cavallaro Standard Dredge & Fill application, Tax Map #267-2, the Wolfeboro Conservation Commission noted the application is unclear as to the following; the proximity of the docks to the 20' property line setback, the bathymetric readings for the entire waterfront and whether this is the best placement for the dock and whether the conservation easement located in the immediate area is incorporated into the design/placement. The Commission questioned the efficacy of dredging this location considering natural sedimentation that may be caused by the stream that enters the parcel near the location of the docks.

Respectfully Submitted,
Lee Ann Keathley
