

**WOLFEBORO CONSERVATION COMMISSION  
DREDGE & FILL MEETING  
March 10, 2014**

**Members Present:** Dan Coons, Chairman, Randy Tetreault, Vice-Chairman, Ed Roundy, Dave Wheeler, Art Slocum, Lenore Clark, Gail Antonucci, Members, Gary Mason, Alternate.

**Lois Russell Personal Trust  
125 Turtle Island Road  
Lake Wentworth  
Standard Dredge & Fill  
TM #181-16**

The applicant proposes to replace several large rocks that have been dislodged from the bank.

**The Wolfeboro Conservation Commission has no objection to the project as stated in the Lois Russell Personal Trust Standard Dredge & Fill application, Tax Map #181-16. However, the Commission noted that the plans were admittedly not drawn to scale and that the distance of the project to the lot line is not noted. Furthermore, there are no elevations shown on the plan and the Commission did not find a cross section of the repairs, construction sequence or information concerning establishment of erosion controls.**
