Lake Winnepesaukee
Permit By Notification
TM #218-150**

The applicant proposes to perform maintenance on waterfront area including dock, apron, jetty and boat ramp areas; work to include replacing boards and fasteners on wood docks, replacing carpet on concrete apron and replacing rocks that have shifted on the stone jetty.

Referencing the Brewster Academy Permit By Notification application, Tax Map #218-150, the Wolfeboro Conservation Commission questioned the exact scope of the project. More specifically, the detailed changes to the existing jetty and the overall construction sequencing. It was the Commission's opinion that there was insufficient plan detail to determine proper review.
