I. Discussion Item

Taking Action for Wildlife Joint Workshop

Representatives from UNH Cooperative Extension reviewed the Taking Action for Wildlife program; noting such is a collaboration between NH Fish and Game and UNH Cooperative Extension to help communities, conservation groups and landowners conserve wildlife and habitats in New Hampshire. The NH Wildlife Action Plan identifies habitats and species in greatest need of conservation, identifies threats to their continued existence and offers strategies to help communities, conservation groups and landowners address these issues.

Following the presentation, both Conservation Commissions met separately with a representative to review and discuss their regions. The Commission discussed public awareness outreach, updating the WAP maps as part of the upcoming Master Plan update and combined efforts with the Land Bank of Wolfeboro Tuftonboro with regard to invasive species.

II. Other Business

None.

There being no further business before the Commission, the meeting adjourned at 8:27 PM.

Respectfully Submitted,
Lee Ann Keathley
