

Wolfeboro Pathways Committee
August 21, 2013
Meeting Minutes
Wolfeboro Town Hall

In attendance: George Vanderheiden, Fred Tedeschi, Mal Blodget, Peter Cole, Kathy Barnard

George Vanderheiden called the meeting to order at 5:04PM.

Peter Cole reported that there are still some washouts on the Sewall Woods trails. Peter said that installing box culverts would help the situation. These would need to be at least 8' long. George will discuss this issue with Rob.

There was a discussion about the Pathways website. It is outdated and was created during our fund raising efforts. The Parks and Recreation website and the Town website have information about the bike trails so the Pathways website is a duplication. There was a discussion about eliminating it. A motion was made and seconded to eliminate the website and domain name. All voted in favor of the motion.

The September 10, 2013 Stakeholders meeting was discussed. This will be held at Carpenter School from 6:30PM to 8:30PM. All Pathways Committee members are encouraged to attend. A facilitator will be leading the session. A "vision statement" needs to be developed and everyone will have an opportunity to suggest ways to improve our Bike and Pedestrian routes, especially in the downtown area. There will be a follow up meeting with possible solutions to consider. We need to make certain all of the stakeholders are aware of, and attend, the meeting - EDC, The Chamber, Downtown Merchants, representatives from the Schools and interested citizens.

Meeting adjourned at 5:30PM.
