Public Comment

Chairman Wood noted that a member of the public has made a request to speak to the Commission in writing and the Commission has allotted him sometime on this agenda to do that. He noted that he did speak to Mr. Jeff Mason prior to the meeting regarding his concern and request to address that concern at this meeting.

Jeff Mason addressed the Commission and stated that he was contacted by Mr. Pernokas owner of a parking lot downtown regarding a car registered to him being parked in this lot and requested him to move. Mr. Mason asked Mr. Pernokas how he got his cell phone number and Mr. Pernokas's response was "I have my ways", this caused concern from Mr. Mason that he was able to obtain his private cell phone number. Mr. Mason explained he contacted the Police Department was informed by the Captain that the Department did provide his cell phone number to Mr. Pernokas to allow Mr. Mason the opportunity to move the vehicle vs. having it towed as it was not a public parking lot. Mr. Mason stated that he checked with other Police Departments to see if this was in fact common to provide people's private information to the public.

Chairman Wood stated he understands Mr. Mason's concerns but noted that the Department did not violate any rules and referred to the Captain to explain.

Captain Rondeau replied it has been a practice of the Wolfeboro Police Department to provide this basic information for matters such as this (noting this is a private parking lot) with the best intentions

to save the vehicle owners the expense from getting towed. He apologized to Mr. Mason and noted they can update the data base to note, not to give his information out in the future. He stated the Department felt that he would appreciate the phone call, rather than being towed.

Chief Chase agreed there was not malicious intent, they have done this in the past to save the owner's the cost of getting towed from the private lot. He apologized and noted that would not give out his information again.

Mr. Mason stated he spoke to many others who felt the same way he did about giving out his personnel information and if his daughter need to learn a life lesson the hard way by getting towed, then that is what should have happened.

Chairman Wood questioned if when he provided the cell phone information originally in the database did he specify it was private information.

Mr. Mason replied, not he did not think he needed to do that. He stated his purpose of this inquiry was to see if the Police Department was providing someone with a favor.

Commissioner Goodgame noted that the information in the database would also be relative to if an accident should happen so if he removes it he would not be contacted.

Mr. Mason replied this is for a parked car not a life or death. He thanked them for their time.
